RENO, WASHOE COUNTY, NEVADA. THURSDAY, OCTOBER 23, 1879.

NO. 21.

THE NORTHERN PACIFIC.

Another Great Railroad Across the Continent—720 Miles in Operation—Through Trains to the Columbia River.

From the New York Sun.

To-day the condition and prospects of the Northern Pacific Railroad are as follows:

Of its chartered line there are completed and in daily operation 136 miles on the Pacific side of the continent, and 424 miles in Minnesota and Dakota; in all, 560 miles. The company owns the undivided half and operates the St. Paul and Duluth Railroad from Thomas to Duluth, Minnesota, twenty-four miles long. It owns the controlling interest in and operates the completed road from Brainerd on its main line to Sault Ste. Marie, a distance of sixty and a half miles. It owns the perpetual right to use and operate the completed road from Sault Ste. Marie to St. Paul, seventy-five and a half miles long. The length of completed road, exclusive of sidings, now operated by the company is 720 miles. In November there will be one hundred miles more of its main line in operation, west of the Missouri river. In the autumn of 1880 the entire Missouri division of the road, 210 miles long, from the Missouri to the Yellowstone, will be completed.

ON THE PACIFIC SIDE.

work has begun on the Pend Oreille division, from the Columbia River at the mouth of Snake to Lake Pend Oreille, 200 miles long. The company will be its own contractor on this division. Twenty-five hundred tons of steel rails were shipped for it around Cape Horn in May last, and 12,000 tons more have been contracted for, deliverable at tide water in December, January, and February next. Four hundred Chinamen will be grading on this division in this month of October.

On the west side of the Red River in Dakota thirty miles of a spur road have been put under contract, from Bassett on the main line northward through the company's land grant. The ultimate extension of this spur will be a connection with a Canadian road to run northward from the boundary line through the wheat fields of the Saskatchewan Valley. And here it is germane to say that under

THE NORTHERN PACIFIC PLAN of reorganization, the right to extend spurs forty miles either side of the main line in the Territories and twenty miles in the States (the limits of its land grant) has been declared and will be exercised. West of the Missouri division there are four divisions to be constructed before the Columbia river is reached. When the westerly one of these, the Pend Oreille, is completed, and the Missouri division is finished to the Yellowstone, there will remain a gap of about 800 miles. A line of six-horse and four-horse coaches will operate this interval; but the length of this mail route will shorten weekly. It is the declared purpose of the directors of the company to run trains through to the Columbia river in a good deal less than five years.

THE BEST LINE OF INLAND STEAMERS in the world operates that great stream to Portland, in Oregon, and to the Pacific Ocean. Nor will these steamers long hold the Northern Pacific in the subordinate relation of a feeder. The westerly division of the road is that called the Pacific. It extends from the west bank of the Columbia up the Yakima Valley, over the Cascade mountains, through the Cowiche Pass to Tacoma, the terminus, and the company's seaport on the Pacific. There awaits it a traffic, practically unlimited, in lumber, timber and coal eastward, and wheat westward. It is in conceivable that the Pend Oreille division shall long gather up the enormous wheat product of eastern Washington to take to the Oregon Steamship and Railroad Company, to be carried down the Columbia river to be shipped at Portland for England. Some coercion will compel the Northern Pacific to retain this freight and carry it to its own seaport, Tacoma. We therefore look to see the construction of the western division of the road commenced unexpectedly soon and vigorously prosecuted.

Pneumonia in Bodie.

Writing of pneumonia the Bodie News says: This dread enemy to good health in mountain towns has been making and havoc among all classes of people here in Bodie during the past few weeks. Its fatal effects do not seem to be confined to any particular locality or character of persons, but the healthiest and strongest, as well as the feeble and aged, seem to fall easy victims when once attacked. Usually, however, the fatal cases are among the new arrivals from warmer climates and lower altitudes, who are not long enough here to become acclimated, and perhaps are careless of their health in various ways. The night air just at this season is particularly dangerous, and those whose business does not demand them to be out after dark should by all means remain within doors. When the sun goes down here, night comes on; there is no twilight, no soft and temperate air, but the curtain of darkness seems to bring the chilliness of winter in a flash. One noticeable feature about the sickness prevailing is that the children thus far have escaped to a great degree the fatal disease; explained, perhaps, by their habits and being kept at night.

MISCELLANEOUS ITEMS.

The Swiss colony, numbering some 700 souls, that settled in Tennessee, is devoting its energies entirely to cheese making.

There has been imported into New York by sea from California since the beginning of this year 1,156,717 gallons of wine, and 114,717 gallons of brandy.

Prince Reuss XX, and his young bride who was up till last May a circus rider in Reno's Hippodrome, have passed through Vienna on their way to Sofia.

The Rev. W. J. Park has been ousted from the pastorate of the Presbyterian church at Canton, Ohio, by his Presbytery, in consequence of the exposure of his plan to elope with a married woman.

The religious dramatic company, which was to play "Uncle Tom's Cabin" in churches only, under sanction of Mrs. Stowe, collapsed after an engagement in Chicago, leaving the performers unpaid.

The highest inhabited house in the world is believed to be the one erected for the miners employed on Mount Lincoln, in the main range of the Rocky Mountains, Park county, Colorado. It is 14,157 feet above sea level.

The rich Englishman, Thomas Holloway, is erecting at his own expense an institution for the higher education of girls. The building alone, which has been begun, is to cost \$1,385,000; it is 410 feet in length.

A young lady of Philadelphia had her pocket picked of a wallet containing \$5. On ascertaining her loss she found that a diamond ring, pronounced to be worth \$300, had slipped from the thief's finger during the operation and remained in her pocket.

In their destruction of the buildings of the Echoe Mission Station the Zulus respected the soldiers' monuments; but destroyed the tablet over the grave of the wife of a missionary whom they had long regarded as a public enemy of their country.

Eastern Siberia is menaced by famine, the prices of the poorer classes are suffering severely. The harvest is extremely poor and the cattle plague has increased the evil, there being in many villages not one beast left alive.

There are now three surveying parties in the hills, mountain and valleys west of the Rio Grande, for the purpose of locating the route for the extension of the Atchison, Topeka and Santa Fe Railroad through Arizona and so on to the ocean.

Blondin, in his Vienna exhibitions, uses a rope stretched at a height of 150 feet, and walks blindfolded, without a balance pole. No net is spread to break the fall, and thus his feats are more dangerous than at Niagara, where a drop into the water might not have killed him.

MORRIS & KENNEDY, Nos. 19 and 21 Post street, San Francisco. Oil Paintings, Water Colors, Engravings and Frames. Velvet Frames of every description for cabinet pictures. These elegant goods are of the choicer description and are the latest productions of some of our most eminent artists. A free Art Gallery connected with the establishment contains the finest pictures in the city, and one of the best in the country. The latest productions of the best artists in the city, direct from the easel to this gallery. Visitors from Nevada are invited to inspect these fine pictures. The display of Water Colors, Oil Paintings, Steel Engravings, Pictures, etc., is very large and elegant. Artists' materials and every style of Frame to fill the largest order.

Notice.

CENTRAL PACIFIC RAILROAD CO., SAN FRANCISCO, Oct. 14th, 1879.

To Wood Contractors and Millmen: Until December 15th, 1879, sealed proposals to furnish two (2) ft. of "engine wood" for the enameled seasons supply will be received at this office. The dimensions of the wood must be blanks upon which all proposals must be made, can be had upon application to the undersigned. B. TALMOT, Fuel Agent C. P. R. R.

Box 238.

Strangers visiting our town during the Fair will do well to call at the Great Eastern Hotel if in need of any goods usually kept in Dry Goods and Clothing store. We guarantee to sell you goods at lower prices than can be bought anywhere in the United States. 08

Try Pechner's Baths at the reduced price, 25 cents. Hot and cold showers. Barnett's Block, Virginia street. 08-11

Watches, Clocks, Jewelry.

All goods sold at the lowest possible figures at George's Jewelry Store, on Virginia Street, Reno, Nevada. 08-11

You need not go down in a damp cellar for a bath, for you can get a fine bath and nice room for 25 cents at Pechner's Bath House, Virginia street. 08-11

Hot and Cold Baths for 25 cents at Pechner's Bath House, Barnett's Block, Virginia street. 08-11

New Barber Shop.

John Belz has opened the Wise House Barber Shop in first class style, and will accommodate all who call with the most approved hair-cut or shave. His outfit is new, and he has the newest and tastiest shop in Nevada. Hot and Cold Baths 25 cents. Hottest stand, and all the accessories usually found in barber shop, connected with the establishment. JOHN BELZ, Commercial Row, Reno, Nevada.

Brookins has just rec'd a large stock of goods. 08-11

The best and most reliable place to buy Piano and Organ is at C. J. Brookins, Virginia street, Reno, Nev. 08-11

New Barber Shop.

B. Lane has opened a barber shop in the building on the corner of Virginia and Second Streets. Hair cut for twenty-five cents.

Farmers should try Osburn & Shoemaker's Condition Powders for horses and cattle. 08-11

GRANT NEXT SUNDAY.

The following telegrams were received in Carson yesterday, and relate to Grant's movements:

SAN FRANCISCO, Oct. 22, 1879.

To Governor Kinkead and the Committee: Did not receive your letter until General Grant left for Sacramento. In a conversation with him some time ago he informed me that he would not have time to take in Tahoe on his way to Virginia, but would go through on special train. Without doubt he would gladly have train stop for two or three hours at Carson, if you telegraph him at Sacramento that it is the general wish that he should do so.

[Signed] JOHN P. JONES.

SAN FRANCISCO, Oct. 22, 1879.

To H. M. Yerking: General Grant and party leave here with one of our drawing room cars and Superintendent's car next Saturday night, special. They will arrive at Reno Sunday afternoon at 3 o'clock. They desire to go to Virginia and return in time to connect with the eastern bound overland train, which will leave there next Tuesday evening. Will it be your convenience and pleasure to take them over your road?

[Signed] A. N. TOWNE.

Thus it is as certain as human arrangements can be that General Grant and party will arrive in Reno next Sunday at three o'clock. So far no attempt has been made to organize a reception committee or in any way to prepare a greeting for the coming great man.

If the people of Reno regard with indifference the arrival in their town of the greatest soldier and most distinguished man in half the world today, then it will be better to take no notice of him than to give him a forced and hollow welcome.

But, on the other hand, if they desire to show their appreciation of the immeasurable services which have been rendered this nation by the man whom all the kingdoms of the world have delighted to honor, proper arrangements should be made to demonstrate their share of the national gratitude.

And, if they mean to do anything about it, it is high time to get ready.

EDITORIAL NOTES.

The Bee last evening stated that the three noted Indian runners, Octo-huron, Moootsasomic and Chumisconee, would run a ten-mile race for \$1000 in Sacramento this morning. These Indians are claimed to be the fastest runners in the world.

We always have maintained, do now maintain, and hope we ever shall maintain, that the Daily Exchange is one of the brightest, liveliest and most readable papers published in San Francisco.—Mammoth City Times.

So say we.

Seventy out of one hundred successful men in the United States were born and brought up on a farm.

The practice of cremation has been recommended by the municipal council of Berlin.

Chasing the Elko Murderer.

The Eureka Leader of Monday says: "Last night two men came in from the Morey District, and reported to Sheriff Kyle as having seen Deputy Simpson and party yesterday morning about 50 miles from town. They also a few hours previous, saw the fugitive Lopez, who was making across the Fish Lake valley. Lopez is mounted on a large and powerful bay horse, stolen from John Bradley of Elko, and was at the time seen, riding a slow gallop, evidently saving his horse. Deputy Simpson and party are well mounted, and when seen were about 20 miles in the rear of the fugitive. If the horses of the latter hold out there is little doubt but that what Lopez will be captured sometime this evening. The direction which the murderer was taking showed that he was not familiar with the lay of the country, and unless he diverges greatly from his course, is sure to be cornered, and if overtaken by the Sheriff's deputies will either have to surrender, or take the chances of being bullet proof."

Danger From Indians in Utah.

The following special is received by the Salt Lake Tribune from its Park City correspondent: —

PARK CITY, Oct. 22.—Dominick Dignon has just arrived from the Duchesne river and reports that the people at Ashley's Fork and Uintah Agency are in great danger from Indians. He says the Snakes have joined the Utes and all the warriors have left Uintah Agency; also, that they are all armed and have a large supply of ammunition, having bought up all there was in the neighborhood. It is supposed they have joined the band of Indians on White river. It is rumored that they number 500 warriors. The inhabitants around Ashley's Fork are building a fort for their own protection. There are about 100 families, with hardly any arms or ammunition. If the Indians do come in that direction they will be apt to sweep everything before them.

STATE NEWS IN BRIEF.

The Elko Grand Jury has ignored the charge of killing Barclay made against Garrard. Garrard will therefore be discharged.

The Carson Appeal states upon good authority that the mortality of Bodie is becoming so great that a San Francisco furniture house will soon start a steam coffin factory in that benighted camp.

J. J. Holmes, charged with a brutal assault upon Mrs. Cummings in attempting to take possession of the Dayton toll road, has published a statement of the affair. He denies having used any violence with Mrs. Cummings, and says that lady threatened "to shoot his paunch out," and that she broadly asserted that he had canine blood in his veins.

The assessment roll of Eureka county shows an increase of assessable property over last year of \$370,000. This is mainly owing to the fact that the Eureka & Palisade Railroad has been taxed \$2,500 more per mile, and the Central Pacific \$300 per mile, than in 1878. The value of real estate in the county is set down at \$2,114,002 40; of personal property, \$979,058; total, \$3,000,000 40.

Lincoln county finances are improving. The Poche Record gives the following as the resources of the county for the current year: The value of Poche property is \$13,195 084, of which the State receives \$3,087 673, leaving for the county \$11,122 14. The tax on the property of Poche, \$14,330 90; State's share, 2,318 20; county's share, \$12,012 70. Total for State \$2,291 87½; total for county, \$23,135 11; grand total, \$57,526 98½.

The Indians complain that there are no ducks, geese or other water fowl at the Sink of Humboldt this year. This they attribute to the scarcity of water, and they are as despondent over the drought as the whites, whose crops were short for lack of moisture. Captain John, Chief of the Big Meadows Indians, when in Winnemucca a few days ago remarked to the Silver State, that "Plute-man no catch'en ducks, no catch'en sugar, no catch'en coffee, no catch'en flour, no catch'en dan thing this winter."

Two freight wagons heavily loaded with a dwelling house in sections, and household furniture, passed through town, last Wednesday, says the Lyon Co. Times. The wagons were taking their load from Gold Hill to Como. This caused some of our old residents to smile, as they remembered how, from 1865 to 1867, houses were brought to Gold Hill from Como. And it may be that the very same houses moved from Como ten years ago will be taken back there during the next few months.

A STOCK GAMBLER'S DEATH.

Norton Loses \$60,000 and Blows Out His Brains.

SAN FRANCISCO, Oct. 22.—M. E. Norton, a resident of New York, who arrived in this city last Thursday, committed suicide by shooting himself in the head at the Palace Hotel this morning. The suicide was discovered at 9 o'clock, when a bell boy entered Mr. Norton's room and found him lying dead on the bed. By his right side was a self-cocking revolver, of which one chamber was discharged, and in his right temple was a wound made by the bullet which had pierced his brain. From the appearance of the body it is supposed that the shot was fired about two hours before the bell boy entered the room. The deceased, as far as is known, had given no intimation of his purpose to end his life, and no note was found to explain the motives that led to the act. It is understood, however, that he had lost a large sum of money recently in stocks. Mr. Norton was in San Francisco some months ago, and on his departure for the East left a large amount of money in stocks. He returned to this city as agent of a New York firm last week, and found that he had lost as much as \$60,000, it is said, by the depression in values during his absence. For two or three nights before the suicide he was unable to rest, and it is thought that the loss of sleep, coupled with his financial disaster, had unsettled his mind. The deceased was about forty years old. In his pockets were found notes and checks to the value of several thousand dollars.

PACIFIC COAST ITEMS.

A Dramatic Relief Society has been formed in Bodie.

The Lassen Advocate will publish a daily during Fair week.

Many citizens of San Jose are visiting the oil well at Lexington.

A valuable deposit of gypsum was last week discovered near Lower Lake.

The stream of emigration to Oregon flows steadily through Susanville.

Johnny Spaulding, a boy of four years, shot a deer near Susanville last week.

Things are lively in Alturas, and the burnt town will soon be entirely rebuilt.

The Bodie Water company has completed its organization, and appears to have a future.

The Mono County Bank building cost \$7,000, and was paid for with the profits of one year.

PARK CITY, Oct. 22.—Dominick Dignon has just arrived from the Duchesne river and reports that the people at Ashley's Fork and Uintah Agency are in great danger from Indians. He says the Snakes have joined the Utes and all the warriors have left Uintah Agency; also, that they are all armed and have a large supply of ammunition, having bought up all there was in the neighborhood. It is supposed they have joined the band of Indians on White river. It is rumored that they number 500 warriors. The inhabitants around Ashley's Fork are building a fort for their own protection. There are about 100 families, with hardly any arms or ammunition. If the Indians do come in that direction they will be apt to sweep everything before them.
